CAREER OBJECTIVE

- To obtain a responsible position in a reputed organization where I can effectively utilize my knowledge in Electronics and Communication Engineering, While also applying my interest in software development. I aim to continuously enhance my technical skills, adapt to emerging technologies, and contribute to the growth and success of the organization.

EDUCATION

B.E-Electronics and Communication Engineering 2023-2027

V.S.B.College of Engineering Technical Campus

CGPA: 7.25

Higher Secondary Education 2021-2023

CD Govt Higher Secondary School

Percentage: 72%

WORK EXPERIENCE

Zekatix Technologies 2024 - 2025

- Worked on microcontrollers, sensors, and IoT-based applications with hands-on hardware interfacing and debugging, Gained practical knowledge in embedded programming and IoT communication concepts.

PROJECTS

Smart Car Parking System Using Arduino 2024-2024

- To address the challenge of manually monitoring parking space availability, I developed a Smart Car Parking system using Arduino and IR sensors. The system automatically detects vehicle occupancy and displays real time parking slot availability. This solution reduced human intervention, improved parking management efficiency and optimized the utilization of available parking spaces.

CERTIFICATIONS

FullStack Web Development |Coursera 2025-20'25

- HTML,CSS,JavaScript,Responsive Web design.

Embedded System and IOT |Coursera 2024-2024

- Learned microcontroller programming, sensor interfacing, and IoT-based system development.

SKILLS

- Java
- Web Development(HTML,CSS,JS)
- Embedded system and IOT Design

LANGUAGES

- English
- Tamil
